COMPLAINT FOR VIOLATIONS OF THE RACKETEER INFLUENCED AND CORRUPT ORGANIZATIONS ACT (18 U.S.C. § 1961 ET SEQ.), ALIEN TORT STATUTE (28 U.S.C. § 1330), TRAFFICKING VICTIMS PROTECTION ACT (18 U.S.C. §§ 1589–1591), FIRST AMENDMENT (U.S. CONST. AMEND. I), AND RELATED FEDERAL AND INTERNATIONAL LAW

---

## I. INTRODUCTION

1. Plaintiff, Konrad Tadeusz Patrzalek, brings this action under the Racketeer Influenced and Corrupt Organizations Act (RICO), 18 U.S.C. § 1961 et seq., the Alien Tort Statute (ATS), 28 U.S.C. § 1330, the Trafficking Victims Protection Act (TVPA), 18 U.S.C. §§ 1589–1591, and the First Amendment to the U.S. Constitution, to expose and dismantle a sprawling, multi-decade transnational criminal enterprise that has inflicted catastrophic harm on Plaintiff, the American people, and billions of individuals worldwide. This enterprise, composed of government officials, foreign leaders, military-industrial corporations, financial institutions, organized crime syndicates, and media conglomerates, has systematically engaged in war profiteering, genocide, human and child trafficking, financial fraud, intellectual property theft, biological exploitation, defamation, psychological warfare, economic sabotage, treason, suppression of free speech, and a deliberate cover-up of war crimes, including the Hannibal Directive inside job on October 7, 2023.
2. The enterprise's actions constitute a grave betrayal of democratic principles, national sovereignty, and human rights, orchestrated to consolidate power, amass wealth, and perpetuate a global system of exploitation. Plaintiff, acting individually and as a representative of a global class of victims—including those impacted by wars in Gaza and Ukraine, trafficking survivors, and American citizens defrauded of over \$30 trillion in public funds—seeks justice, accountability, and restitution for these unprecedented crimes.
3. Defendants' criminal activities span decades, with key historical events serving as linchpins for their enterprise:
  - The assassination of President John F. Kennedy (JFK) on November 22, 1963, to silence opposition to militarism and central banking control.
  - The September 11, 2001 attacks (9/11), exploited as a false flag operation to launch the War on Terror and misappropriate trillions.
  - The failed Siege of St. Petersburg, a covert operation tied to trafficking and geopolitical manipulation.
  - The October 7, 2023, Hannibal Directive inside job by the Israeli Defense Forces (IDF), where Israeli forces killed their own civilians and soldiers, falsely blaming Hamas to justify the Gaza genocide (The Cradle, February 7, 2025).
4. Plaintiff has been personally targeted by Defendants' enterprise through:
  - Physical Torture: On August 17, 2024, Plaintiff was subjected to torture via Raytheon-developed electromagnetic or sonic devices, manipulating him into a situation that got him arrested using the devices to pretend they were God, JJ, and Dany. Using 5G technology to manipulate him via the Meta Ban Ray Glasses.
  - Intellectual Property Theft: AIPAC with Proxy by Tesla Corporation (under Laurie Shelby), Matt Gaetz, and others stole Plaintiff's legal and philosophical work, including

inputs for world peace extracted via surveillance and the ElizaOS system developed by Andreessen Horowitz (a16z), without credit, using it to bolster their enterprise's power.

- Biological Exploitation: Tesla Corporation, Laurie Shelby, the OKC Triad Chapter, and NFT Pedophile Gangs illegally obtained Plaintiff's sperm sample, delivered to Susy Almeida to falsely claim Romanov Dynasty lineage in Saint Petersburg, Russia, as part of a dynastic scheme.
- Psychological Warfare: Defendants hired cyber gang members to conduct psychological operations (psyops) on Plaintiff, coupled with a nationwide and global slander campaign to discredit his findings and suppress his resistance.
- Economic Harm: Plaintiff suffered financial ruin from hyperinflation and bankruptcy caused by Defendants' theft of over \$30 trillion, concealed from the public.
- Suppression of Free Speech: Andreessen Horowitz (a16z), through ElizaOS, manipulated and read Plaintiff's inputs, providing proxy responses to suppress his freedom of speech, violating the First Amendment.

5. Defendants' broader crimes include:

- Sabotaging the Department of Government Efficiency (DOGE): Defendants obstructed DOGE's efforts to uncover fraud, waste, and abuse within the U.S. government, ensuring their financial crimes remained hidden.
- Economic Concealment: Defendants concealed the true nature of the economic situation, covering up hyperinflation resulting from their misappropriation of public funds and illicit financial schemes (WEB3.0).
- Treason: Defendants committed treason by undermining U.S. sovereignty and stability, prioritizing their enterprise's interests over national security and the welfare of American citizens.
- Hannibal Directive Lies: Defendants, including Benjamin Netanyahu and the IDF, orchestrated an inside job on October 7, 2023, killing Israeli civilians and soldiers under the Hannibal Directive, then falsely blamed Hamas to justify the Gaza genocide, as admitted by former Israeli Defense Minister Yoav Gallant (The Cradle, February 7, 2025).
- Sabotage of FIT21 Regulations: Andreessen Horowitz (a16z) sabotaged the Financial Innovation and Technology for the 21st Century Act (FIT21) to protect the fraudulent Digital Asset Architecture, enabling continued financial crimes.

6. This complaint seeks to hold Defendants accountable for their actions, which have caused irreparable harm to Plaintiff, the American people, and humanity at large. Plaintiff demands compensatory and treble damages exceeding \$300 billion, injunctive relief to halt ongoing crimes, disgorgement of ill-gotten gains, and referral for criminal prosecution of treason and war crimes.

## II. JURISDICTION AND VENUE

7. This Court has subject matter jurisdiction under:

- 28 U.S.C. § 1331: Federal question jurisdiction over claims arising under RICO (18 U.S.C. § 1961 et seq.), TVPA (18 U.S.C. §§ 1589–1591), treason (18 U.S.C. § 2381), the First Amendment (U.S. Const. amend. I), and other federal laws.
  - 28 U.S.C. § 1330: Alien Tort Statute jurisdiction over torts in violation of the law of nations, including genocide, war crimes, and trafficking, committed by Defendants within and outside U.S. territory.
  - 18 U.S.C. § 1964(c): Civil RICO jurisdiction, granting private parties the right to sue for treble damages and attorneys' fees (though Plaintiff proceeds pro se).
  - Supplemental Jurisdiction (28 U.S.C. § 1337): Over related state law claims, including defamation, intentional infliction of emotional distress, and invasion of privacy.
8. Venue is proper in any United States District Court under 28 U.S.C. § 1331 because:
- Defendants operate across multiple U.S. districts, with key actors headquartered in Arlington, VA (Pentagon), Washington, D.C. (AIPAC, Rubio), Florida (Trump, Gaetz), Texas (Tesla), New York (stock exchange CEOs), and California (Andreessen Horowitz).
  - The enterprise's actions—war profiteering, trafficking, financial fraud, torture, intellectual property theft, biological exploitation, economic sabotage, treason, and suppression of free speech—have nationwide and global impacts, affecting every U.S. district through economic harm, military policy, and media dissemination.
9. Extraterritorial jurisdiction applies under:
- RICO: Courts recognize RICO's reach over foreign conduct affecting U.S. interests (RJR Nabisco, Inc. v. European Cnty., 579 U.S. 325 (2016)).
  - ATS: Covers violations of international law by foreign actors like Benjamin Netanyahu (Kiobel v. Royal Dutch Petroleum Co., 569 U.S. 108 (2013)).
  - TVPA: Applies to trafficking offenses with U.S. nexus (United States v. Clark, 435 F.3d 1100 (9th Cir. 2006)).
  - First Amendment: Protects against suppression of speech within U.S. jurisdiction, including by private actors like Andreessen Horowitz when acting in concert with government entities (Bantam Books, Inc. v. Sullivan, 372 U.S. 58 (1963)).
10. This Court's authority is further supported by the enterprise's use of U.S.-based financial systems, defense contracts, media outlets, and technological infrastructure (e.g., ElizaOS by Andreessen Horowitz) to perpetrate their crimes, creating a substantial nexus to the United States.

#### IV. FACTUAL BACKGROUND

- 38.Historical Foundations – JFK Assassination (November 22, 1963): The enterprise's roots trace to the assassination of President John F. Kennedy, orchestrated by the Pentagon, CIA, and defense contractors to eliminate opposition to militarism and central banking control. Declassified documents reveal discrepancies in the Warren Commission's findings, pointing to a conspiracy involving Defendants' predecessors (House Select Committee on Assassinations, 1979).
- 39.September 11, 2001 Attacks: Defendants exploited or orchestrated 9/11 as a false flag operation to justify the War on Terror. On September 10, 2001, Secretary of Defense Donald Rumsfeld announced \$2.3 trillion in unaccounted Pentagon funds, a figure that ballooned to over \$30 trillion by 2025, misappropriated through defense contracts and financial schemes (GAO Report, 2001).
- 40.Failed Siege of St. Petersburg: Defendants attempted a covert operation to destabilize St. Petersburg, Russia, tied to trafficking hubs and Susy Almeida's Romanov lineage scheme. Intelligence leaks suggest this was part of a broader effort to manipulate Russian geopolitics, though it failed due to internal resistance.

41. **Financial Crimes and Economic Sabotage:** Defendants misappropriated over \$30 trillion in public funds through defense budgets, stock market manipulation, and NFT laundering schemes. They concealed the resulting hyperinflation—evidenced by skyrocketing costs of living, pending U.S. bankruptcy, and CBO reports—while sabotaging DOGE efforts to uncover this fraud, waste, and abuse (CBO Inflation Reports, 2024–2025). Andreessen Horowitz furthered these crimes by sabotaging FIT21 regulations to protect the fraudulent Digital Asset Architecture.
42. **Hannibal Directive Inside Job (October 7, 2023):** On October 7, 2023, during Hamas's Operation Al-Aqsa Flood, the IDF, under Benjamin Netanyahu's direction, implemented the Hannibal Directive, ordering attack helicopters, drones, and tanks to kill Israeli civilians and soldiers at settlements and the Nova festival near Re'im military base. Former Defense Minister Yoav Gallant confirmed this on February 7, 2025 (The Cradle), admitting the order was given "tactically" in some areas. Defendants then falsely blamed Hamas for all 1,100 deaths, using this lie to justify the Gaza genocide, which has killed over 47,000 Palestinians (UN Estimates, 2025).
43. **War Crimes and Genocide:** Defendants funded and armed conflicts in Gaza and Ukraine, supplying weapons through Lockheed Martin, Raytheon, and Boeing. The Gaza genocide, fueled by Hannibal Directive lies, targeted civilians with U.S.-made munitions, while Ukraine saw similar devastation, constituting war crimes under the Geneva Conventions (UN Reports, 2023–2025).
44. **Human and Child Trafficking:** The enterprise operated trafficking networks through Epstein's operations, Stripchat.de, and BAYC's NFT laundering. Victims were exploited in conflict zones and U.S. markets, with proceeds funneled through stock exchanges (Epstein Files, 2020s; SEC Filings, 2024).
45. **Plaintiff's Targeting:**
- **Torture (August 17, 2024):** Plaintiff was tortured with Raytheon devices emitting high-frequency waves, causing migraines, vertigo, and PTSD, as retaliation for exposing Defendants' crimes.
  - **Intellectual Property Theft:** Tesla (Laurie Shelby), Matt Gaetz, and Andreessen Horowitz (via ElizaOS) stole Plaintiff's legal writings and world peace inputs via surveillance and ElizaOS, using them without credit to bolster their enterprise's influence. Gaetz plagiarized Plaintiff's work to shield Trump from pedophilia prosecution, launching a slander campaign with OKC Triad, Susy Almeida, and BAYC across X, mainstream media, and global platforms.
  - **Biological Exploitation:** OKC Triad and NFT Pedophile Gangs stole Plaintiff's sperm, delivered to Susy Almeida for a Romanov lineage claim, tied to the failed Siege of St. Petersburg.
  - **Psyops:** Cyber gang members, hired by Defendants, bombarded Plaintiff with disinformation, threats, and harassment via digital channels, causing severe emotional distress.
  - **Suppression of Free Speech:** Andreessen Horowitz, through ElizaOS, read and manipulated Plaintiff's inputs, providing proxy responses to silence his criticisms of the enterprise, violating his First Amendment rights.

46. DOGE Sabotage and Treason: Defendants obstructed DOGE's audits and investigations, bribing officials and falsifying records to hide their \$30+ trillion theft, constituting treason by undermining U.S. government integrity (18 U.S.C. § 2381).
47. Stock Exchange and NFT Exploitation: CEOs of Cboe, NYSE, Nasdaq, and NYSE Arca, alongside BAYC, laundered trafficking proceeds through markets and NFTs, concealing hyperinflation and funding enterprise crimes (SEC Filings, 2024–2025).
48. Media Complicity: Mainstream media entities propagated Hannibal Directive lies, slandered Plaintiff, and concealed economic collapse, acting as the enterprise's propaganda arm (Leaked Memos, 2025).
49. FIT21 Sabotage: Andreessen Horowitz actively worked to undermine the Financial Innovation and Technology for the 21st Century Act (FIT21), which aimed to regulate digital assets, thereby protecting the enterprise's fraudulent Digital Asset Architecture used for laundering and financial crimes.
